Job Advertisement VA –NO: 2022/12/001.

Rescue life of children (RLC) is a national non-profit organization whose operations focus on improving the lives of vulnerable children and communities affected by conflict and natural disasters in South Sudan. The organization is working in the thematic areas of Education, women empowerment, protection, health & nutrition, WASH and peace building as well as trauma awareness. We target the most vulnerable persons in the country especially in conflict-affected areas, displaced persons and most underserved populations. RLC is currently operating in Jonglei and Northern Bhar el Gazal states. The organization was established in 2015 by group of health professional volunteers who had identified a major gap in provision of services to vulnerable children and families in South Sudan.

RLC is seeking to recruit: -

Job Title: Site Engineer
Location: Aweil East
Reporting to: Education Manager

JOB PURPOSE:

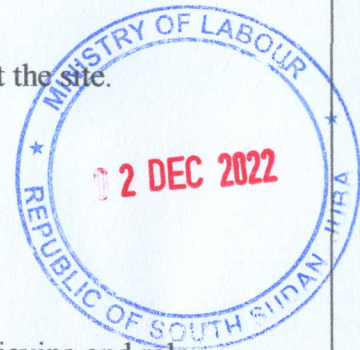

Working under overall leadership and guidance of the Education Manager and Programs Coordinator and supervision of the official(s) assigned by the Education manager, the incumbent is expected to perform as Project Site Engineer to provide technical, administrative and monitoring of the construction of semi-permanent learning classrooms in Aweil East County. The Site engineer will ensure that the construction works are done according to the civil plans, structural designs and drawings in full compliance with the specifications using high quality construction materials as indicated in the construction proposal and completed and handed over to the concerned authority within the stipulated timeframe.

Key Duties & Responsibilities:

- Act as the main Technical Adviser to the Contractor and supervise the works of the Technicians, Craftsmen, Masons, Plumbers and other related workers and maintain precise and regular journal of work progress.
- Manage, monitor, interpret and explain the building plan, drawing and design documents supplied by the concerned authority.
- Maintain constant coordination between the Contractor and RLC Executive Director, Education manager or his assigned official(s).

- Maintain constant liaison with the sub-Contractor and their representatives (Architects, Engineers and Surveyors), including attending regular meetings to ensure the pace of work progress.
- Survey the construction site and ensure that construction activities are carried out within demarcated land boundary and protect the site from external encroachment.
- Maintain liaison with the local authority (where appropriate to the project) and sort out emerging issues in consultation with RLC Education Manager, Deputy Director and his assignees to ensure uninterrupted progress of the construction works.
- Ensure that the construction activities are carried out according to the plans, designs and drawings and ascertain accuracy of the qualities, quantities and proportions of the construction materials are precisely maintained.
- Ensure that all materials used and works performed are in accordance with the specifications indicated in the contract document.
- Review and agree on the quantity, quality and cost of the materials used for construction of the building by the Contractor or sub -contractor.
- Ensure that the works timely progress in order to meet agreed deadlines.
- Oversee quality control, health and safety matters of workers on the construction site.
- Prepare various narratives, technical and financial reports as required.
- Resolve any unforeseen technical difficulties and other problems that may arise at the site.

SKILLS AND BEHAVIOURS (our Values in Practice)
